School Board of Madison

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To Members of the School Board and Citizens of Madison:

Teachers in the Madison schools during the year 1948-1949 were as follows: — High School and Junior High Headmaster Lorne Hulsman, science and mathematics; Mr. Allan Bushold, English and social science; Mrs. Erma Lyman, French and grades seven and eight; Mrs. Martha Kelley, Corner School grades four, five and six; Mrs. Manora Clayton, Silver Lake School, Grades one, two and three. Madison is indeed fortunate in having available such capable teachers. The high quality of their work and their devotion to the welfare of the pupils in their care deserves high commendation.

During the current year, following the closing of Madison High School, the Corner School, (grades four, five and six) was moved to the large room in the high school building. Removal of the wall between the laboratory and the junior high room provides a good room capable of accommodating about twenty pupils, now occupied by grades seven and eight. A complete job of redecoration in the high school building has put these rooms in excellent condition. The room now occupied by the intermediate grades is the most adequate and attractive class room in this supervisory union, and will compare favorably with any school room in the state.

The current project of the Women's Club of providing equipment for serving hot lunches and their assistance in preparing such lunches is a significant contribution. A hot noon meal is of immense benefit to growing boys and girls. Federal aid up to nine cents per child per day is available when certain reasonable specifications are met. With this help it

is possible to serve good, nourishing noon lunches at less than the cost of lunches prepared at home. In addition to the financial aid considerable quantities of surplus foods are distributed by the state and federal governments upon payment by the receiving school of the cost of transportation. I urge that this be given serious study.

Increasing enrollment in the primary grades has brought the number of pupils in the Silver Lake School to twenty nine. This number will be somewhat lessened next year, but will be so increased within two or three years as to make probably the necessity of moving one grade to the other school.

The fine drapes provided by the Women's Club and hung in the intermediate room are very decorative and make it possible to darken the room sufficiently to provide good projection conditions.

The continued interest and cooperation of School Board members, teachers, parents, and pupils is warmly appreciated.

Respectfully submitted,

EVERETT H. BRASIER
